

Club Racer

*the latest news: * Regional news * National news * BRCA news * club news **

The Club Racer section of Racer magazine is for everything that goes on in the UK to do with clubs, racing and events. We want to give all clubs and races the chance to get into print and we need your help to get the reports onto the pages of Racer.

Eastbourne's New Track

 Eastbourne Electric Car Club's new on-road track has been well received by the drivers after holding their first meetings. They are holding an Open Day on 3 June and have already received entries from the likes of Andy Moore, Olly Jefferies, David Spashett and Chris Grainger – you can complete an online entry form by going to www.eecc.co.uk/openday/

The EECC Summer Championship takes place every other Sunday, with the gates opening at 8am. Each meeting will include four qualifiers and two finals. Other notable dates

include the club hosting a round of the Schumacher BTCC on 24 June and the SLCC on 5 August. There will be

practice days on the Saturdays before big meetings up until 10.30pm under the floodlights.

The busy calendar also features midweek racing on Wednesday nights from 7pm under the floodlights where you will get three qualifiers and a final. Any pre-glued tyre is allowed and everyone is welcome. The track

is located close to the Knockhatch Adventure Playground in Hailsham (BN27 3GD). When you get to this roundabout on the A22 for Knockhatch, head north and the track is located two fields on the left.

For more information, go to www.eecc.co.uk or call Darren Simpson on 01323 440140.
